## PROFESSIONAL SUMMARY

.NET Developer with 1.5 years of experience in backend application development using C#, ASP.NET Web API, SQL Server, and ADO.NET. Experienced in developing and maintaining REST APIs, writing and modifying SQL queries and stored procedures, and implementing email logging functionality. Skilled in API testing using Postman, debugging backend issues, validating database operations, and resolving application defects. Familiar with Angular and experienced in collaborating with team members to implement backend enhancements based on business requirements.

## EDUCATION

**Sant Gadge Baba Amravati University** **Maharashtra**
*Bachlor of Engineering (CSE)* *2020 - 2024*

## TECHNICAL SKILLS

**Programming Languages:** C#, SQL
**Frameworks:** ASP.NET Core MVC, ASP.NET MVC, .NET Core
**Web Technologies:** HTML5, CSS3, JavaScript, Bootstrap, jQuery
**Database Technologies:** SQL Server, Stored Procedures, Joins, Views
**ORM and Data Access:** Entity Framework Core, ADO.NET, LINQ
**API and Architecture:** RESTful APIs, Web API, MVC Architecture, Dependency Injection
**Tools and Concepts:** Visual Studio, Git, GitHub, OOP, CRUD Operations, Debugging

## WORK EXPERIENCE

### .NET Developer
*SOFTROUTE INFO TECHNOLOGIES PRIVATE LIMITED, Telangana, India* *May 2025 – Sept 2026*

- Developed and maintained backend functionalities using C# and ASP.NET Web API to meet business requirements and support application enhancements.
- Created and modified SQL queries and stored procedures to support data retrieval, updates, and application-specific database operations.
- Used ADO.NET to interact with SQL Server and validate database operations associated with backend API functionality.
- Analyzed API request payloads, investigated unexpected responses, and resolved backend defects through debugging.
- Implemented email logging functionality to store recipient details, project information, and email status in SQL Server.
- Tested REST API endpoints using Postman and verified request parameters, response data, and database records.
- Collaborated with team members to understand business requirements, troubleshoot technical issues, and implement backend changes.

### Quality Assurance (QA) Associate
*Siyaram Silk Mills, Maharashtra, India* *July 2024 – March 2025*

- Performed quality inspections on textile products to identify defects and maintain product quality standards.
- Inspected fabric for visible defects and quality issues during the production process.
- Recorded inspection findings and reported quality issues to the concerned team.
- Coordinated with production team members to support quality control procedures.

## PROJECTS

**ISG Tango – Sourcing Solution Platform**

- Worked on a digital sourcing platform that helps enterprises manage technology sourcing activities, evaluate service providers, and support sourcing decisions.
- Maintained and enhanced backend REST APIs using C# and ASP.NET Web API to implement changes based on business requirements.
- Created and modified SQL queries and stored procedures to support application data retrieval and database operations using SQL Server and ADO.NET.
- Implemented and maintained email logging functionality to record recipient details, project information, and email status in SQL Server.
- Investigated API request payload issues, debugged backend defects, and implemented fixes to address application issues.
- Tested REST API endpoints using Postman and verified API responses and database records to validate functionality.
- **Technologies:** C#, ASP.NET Web API, SQL Server, ADO.NET, Angular, Swagger
